

Free Meals for Seniors

There are 12 senior centers, or *comedores*, within the City of Hialeah, seven of which are operated by HUD, three by the City of Hialeah, and two are Little Havana Activities and Nutrition Centers.

The in-take process is the same for all locations. Residents must apply in person with their required documents to register. Depending on occupancy and/or transportation availability, they are either placed on a waiting list or able to start attending the centers once registration is completed. The only requirement is that the constituent must be 65 years of age or older.

All agencies are required to have the constituent fill out a 701 B or 701 C form, and an additional insert form is completed by high risk seniors at Little Havana Nutrition Centers to see if they meet the required nutrition screening score in order to receive a second meal of the day (funding that was allocated by Commissioner Seijas).
